

### Sexual Violence Policy

---

- (a) Canadian College of Health Science & Technology is committed to providing its students with an educational environment free from sexual violence and treating its students who report incidents of sexual violence with dignity and respect.
- (b) Canadian College of Health Science & Technology has adopted this Sexual Violence Policy, which defines sexual violence and outlines its training, reporting, investigative and disciplinary responses to complaints of sexual violence made by its students that have occurred on its campus, or at one of its events and involves its students.
- (c) The person accused of engaging in sexual violence will be referred to as the “Respondent” and the person making the allegation as the “Complainant”.

### Definition of Sexual Violence

---

Sexual violence means any sexual act or act targeting a person’s sexuality, gender identity or gender expression, whether the act is physical or psychological in nature, that is committed, threatened or attempted against a person without the person’s consent and includes sexual assault, sexual harassment, stalking, indecent exposure, voyeurism and sexual exploitation.

Sexual assault is a criminal offence under the Criminal Code of Canada. Sexual assault is any type of unwanted sexual act done by one person to another that violates the sexual integrity of the victim and involves a range of behaviours from any unwanted touching to penetration. Sexual assault is characterized by a broad range of behaviours that involve the use of force, threats, or control towards a person, which makes that person feel uncomfortable, distressed, frightened, threatened, or that is carried out in circumstances in which the person has not freely agreed, consented to, or is incapable of consenting to.

### Consent

---

The voluntary and explicit agreement to engage in the sexual activity in question. Consent is the act of willingly agreeing to engage in specific sexual behaviour, and requires that a person is able to freely choose between two options: yes and no. This means that there must be an understandable exchange of affirmative words which indicates a willingness to participate in mutually agreed upon sexual activity. It is also imperative that everyone understands the following:

- Silence or non-communication must never be interpreted as consent and a person in a state of diminished judgment cannot consent
- A person is incapable of giving consent if they are asleep, unconscious or otherwise unable to communicate.
- A person who has been threatened or coerced (i.e. is not agreeing voluntarily) into engaging in the sexual activity is not consenting to it.
- A person who is drugged is unable to consent.
- A person is usually unable to give consent when under the influence of alcohol and/or drugs.
- A person may be unable to give consent if they have a mental disability preventing them from fully understanding the sexual acts

- The fact that consent was given in the past to a sexual or dating relationship does not mean that consent is deemed to exist for all future sexual activity.
- A person can withdraw consent at any time during the course of a sexual encounter.
- A person is incapable of giving consent to a person in a position of trust, power or authority such as, a faculty member initiating a relationship with a student who they teach, an administrator in a relationship with anyone who reports to that position.
- Consent cannot be given on behalf of another person. It is the responsibility of the initiator of sexual activity to ensure clear and affirmative responses are communicated at all stages of sexual engagement. It is also the initiator's responsibility to know if the person they are engaging with sexually is a minor.
